Additional Information Regarding State Police Expungement Status Portal: After a judge signs your granted expungement order, the order will be transmitted to law enforcement agencies who are responsible for removing expunged records from their files. One of those law enforcement agencies is the New Jersey State Police (NJSP), which is responsible for removing expunged criminal complaints from the Computerized Criminal History (CCH) system that the NJSP uses to respond to criminal history background checks. The NJSP maintains its own Expungement Status Portal for you to track whether it has processed your expungement order. You can sign up for an account to access the NJSP Expungement Status Portal and track your expungement order by visiting https://expungement.njsp.gov/ . For any questions concerning the Expungement Status Portal or registration process, please contact the NJSP at (609) 671-7900.

CAPS Fees and Fines Data Displayed Within the Financial Data Section

The Expungement System has been updated such that probation fees and fines will be retrieved from the Comprehensive Automated Probation System (CAPS). The cases selected for expungement will be matched against the petitioner's information in CAPS and pulled into the Expungement System on the Proposed Order screen. Any unmatched CAPS information is displayed, and you'll still be able to add any additional CAPS/fees and fines information.

On the Proposed Order screen, there is a "Refresh" button that will retrieve any new CAPS data. The data should be reviewed for accuracy. The screen shot below shows that matched CAPS data was found associated with a selected case to be expunged.

Figure 1. Matched CAPS data found

The screenshot shows the 'Financial obligations/Restitution Details' section of the Proposed Order screen. A red box highlights the top row where a case for 'Treasurer, State of New Jersey' is listed. The row includes fields for Case ID (05-08-00671-I), Balance due (\$11,300.00), Disposition type (COND DISCHARGE), and Probation term end date (6/30/2024). Below this, another red box highlights a section titled 'Select/add additional cases and corresponding amounts to be entered into "Treasurer, State of New Jersey"'. It lists two other cases: S 20210013930408 and S 20210013950408, both with a balance due of \$158.00, disposition type 'COLLECTIONS ONLY', and a probation term end date of 3/4/2022. A green 'Refresh' button is visible in the top right corner.

Figure 2 shows that CAPS data was found that may relate to the petitioner, but not matched to any selected cases.

Petitioners Can Change the Expungement Type for Clean Slate and Regular Expungement Types

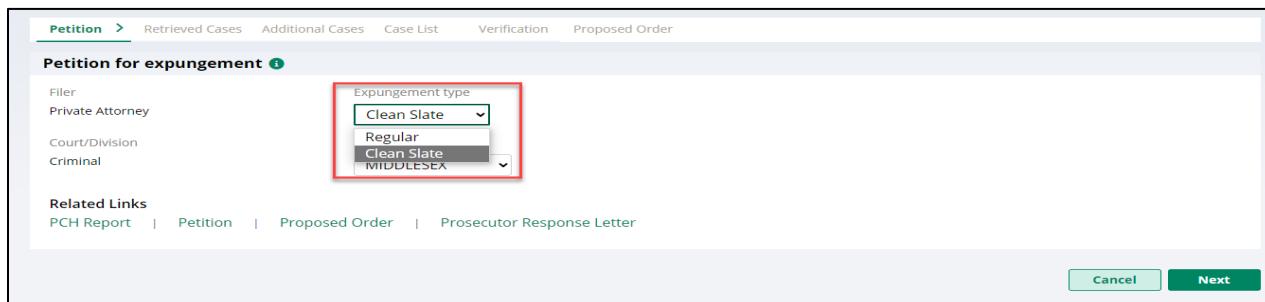

For a Regular or Clean Slate expungement that is returned by the Prosecutor and in the status 'Pending Petitioner Response', petitioners will be able to change the expungement type from regular to clean slate, or clean slate to regular.

If the order is changed from Clean Slate to regular, cases on the case list will be deselected by default.

If the order is changed from Regular to Clean slate, cases on the case list will be selected by default.

If an expungement type is changed from Clean Slate to Regular and vice versa, the Proposed Order PDF will reflect the appropriate expungement type.

A case jacket entry is added when the Expungement Type is updated.

Attorneys can now authorize a non-attorney user as a designee. The designee will have the same access as the attorney in the Expungement System. For more information click [here](#).

Attorneys Can Now Authorize a Non-Attorney User As a Designee

Attorneys (Private Attorney, Public Defender, Prosecutor, Attorney General) have an option to authorize a non-attorney as a designee within Attorney Registration and Payment application. Once added, the designee will have the same access as that of the attorney for the Expungement System.

By clicking “**Myself**,” a user can login as themselves. Selecting this option will allow a user to file documents to the court on their own behalf.

By clicking “**Someone else**,” a user is given the option to login as an attorney.

Note: A user can be authorized as a designee for more than one attorney.

eCourts Party Court History Report Enhancements

Enhanced

The Party Court History (PCH) Report is enhanced to include an **Unclassifiable charges** section within each division, Criminal, Municipal, and Family. For more information click [here](#).

Unclassifiable Charges Section for Criminal, Municipal and Family Added to PCH Report

The PCH report now displays new sections called **Unclassifiable Charges** for each division – Criminal, Municipal and Family. The purpose of this section is to display any cases that do not fit the criteria to be included in the Pending Charges, Prior Convictions, or Non-Conviction sections within a division.

Example: A Criminal case (Promis/Gavel) was remanded to municipal court; however the associated complaint number pre-dates the ACS system, therefore, it will not be displayed in the Municipal division of the report. In this scenario, the P/G case and corresponding complaint number will be displayed under **Criminal Unclassifiable Charges** section.

Party Court History Report Generated and Available when an Expungement Petition is Initiated

The Party Court History report (PCH report) is now generated and displayed as a text link within the Quick Links section when a petitioner initiates an expungement petition.

The Party Court History report provides a comprehensive court history of the petitioner at the time of petition submission. Case information is gathered from Judiciary case management systems and are consolidated based on the court where the case is currently pending or last disposed.

Note: A self-represented litigant will not see the PCH Report link until after the petition is submitted.

Clicking the link will open the Party Court History report as a PDF for the party/person the expungement petition is filed for. This report must be opened and reviewed by an attorney filer and court staff filer before the petition can be submitted.

Note: When the PCH report link is clicked and is not ready to be generated yet, a warning message will appear, but the user can still navigate within the system.

Below this is a 'Quick Links' section containing a yellow box with the text 'Please review the enclosed PCH report' and a link labeled 'PCH Report'. The navigation bar below includes links for 'Petition' (which is selected), 'Retrieved Cases', 'Additional Cases', 'Case List', and 'Proposed Order'. The 'Petition for expungement' section shows the filer as 'County Public Defender' and the court/division as 'Criminal'. The expungement type is 'Drug Court' and the filing county/court is set to 'MIDDLESEX'. At the bottom, there's an 'Add documents' section with a '+ Add documents' button and buttons for 'Cancel' and 'Next'.

Enhancement to Cease Notification to County Prosecutor

The system will no longer send a notification to County Prosecutors' Notification Workbasket when a Regular or Clean Slate petition is submitted in the **same filing county** as the the Prosecutor.

The County Prosecutor will only see an entry in their In Progress Workbasket to review and provide a response.

The below screenshot illustrates that for a petition filed in Atlantic county and the Atlantic County Prosecutor's Notification Workbasket does not have a notification entry for the expungement case. However, the In Progress Workbasket has the entry for Pending Prosecutor Review for that expungement case.

View Notification Status

A new screen, “View Notification Status,” has been created that displays a status update of each notified party’s review/acknowledgement of final expungement order. That is, the screen is intended to provide the petitioner a status – Pending or Complete – to which notified party acknowledged the review of the expungement order. As a reminder, the expungement case will be updated to **Expunged** status once all notified parties have reviewed and complete the notification task.

Note: The actual removal of the case/defendant record still has to be completed by the appropriate notified party in ***their source system***.

This screen is accessible via the In Progress Workbasket action menu by selecting “View Notification Status” for an order that has been granted.

The columns can be sorted to view the information in ascending or descending order.

At the top, there's a section for "Defendant Information" with fields for Defendant name (ANNIE GRAY), Date of birth (11/30/1975), SBI (999566G), and Alias (—). Below this is a "Quick Links" section with a link to "View Expungement Case Jacket". The main area is titled "Notification Status" and shows an expungement case number: XP-ATL-21-001182. There is a "Refresh" button and a note that there are 5 records. A table below lists the "Notified party(ies)" along with their "Venue" and "Status":

Workbasket Search Functionality and Updated Result Display

Enhanced	Workbasket search functionality has been improved through the addition of new search criteria. For more information click here .
Enhanced	Warning message on workbasket when search results exceeds 500 records. For more information click here .

Additional Search Criteria For Workbasket Search

The eCourts Expungement System has been enhanced to provide users with additional search criteria within the workbasket search functionality. These changes will streamline access to electronic expungement cases.

Users can now search the **In Progress** and **Expungement Notifications** workbaskets by selecting the following additional criteria:

- Filing date
- Decision date
- Status (search criterion already exist for In Progress workbasket)

Note: Search criteria defendant name and SBI remain

When searching by Filing date and Decision date, users may search a date range using the “From date” and “To date” fields, or search for one specific date by entering that date in the “From date” field. When searching by Status, users must select the desired case status from a dropdown menu.

Figure 1 – Updated Search Criteria Values for Expungement Notifications Workbasket

The screenshot shows a table of search results for the 'Expungement Notifications Workbasket'. The columns include 'Case number', 'Defendant', 'SBI', 'Filing date', 'Expungement type', 'Status', and 'Notification venue'. A modal dialog box titled 'Search parameters' is overlaid on the table. It contains fields for 'Expungement Type' (dropdown set to 'All') and 'County' (dropdown set to 'All'). Below these is a section for 'Search criteria *' with a dropdown menu open. The menu options are: 'Select', 'Select', 'Defendant name', 'Filing date', 'Decision date', 'SBI number', and 'Status'. The 'Status' option is highlighted with a yellow background. At the bottom of the dialog are 'Set' and 'Search' buttons.

Warning message on workbasket when search results exceeds 500 records

When performing searches that result in greater than 500 records in the **In Progress** workbasket or the **Expungement Notifications** workbasket, users will be notified with an informational message at the top of the page. The workbasket will display the results up to the 500 record limit, and users may access those records. To refine the search results, additional search criteria will have to be added.

Remove the informational message by clicking on the “x” on the upper right of the message bar.

Figure 2 – Search Results Greater Than 500 Records

The screenshot shows a web-based application interface for managing expungements. At the top, there is a header with the text "In Progress E... X". Below the header, a breadcrumb navigation shows "Expungements". A prominent yellow warning bar spans across the top of the main content area, containing the text "Over 500 results to display, please add additional criteria to refine the results." with a close button "X". Below the warning bar is a search bar with fields for "Expungement Type: All X", "Court/Division: All X", "Filing county/court: All X", and a "+Add/Change" button. Underneath the search bar is a refresh button "Refresh F" and a message "500 results found". A pagination control indicates "Page 1 of 50" with arrows for navigation.
